- Packer/Holder
- Other (Specify)

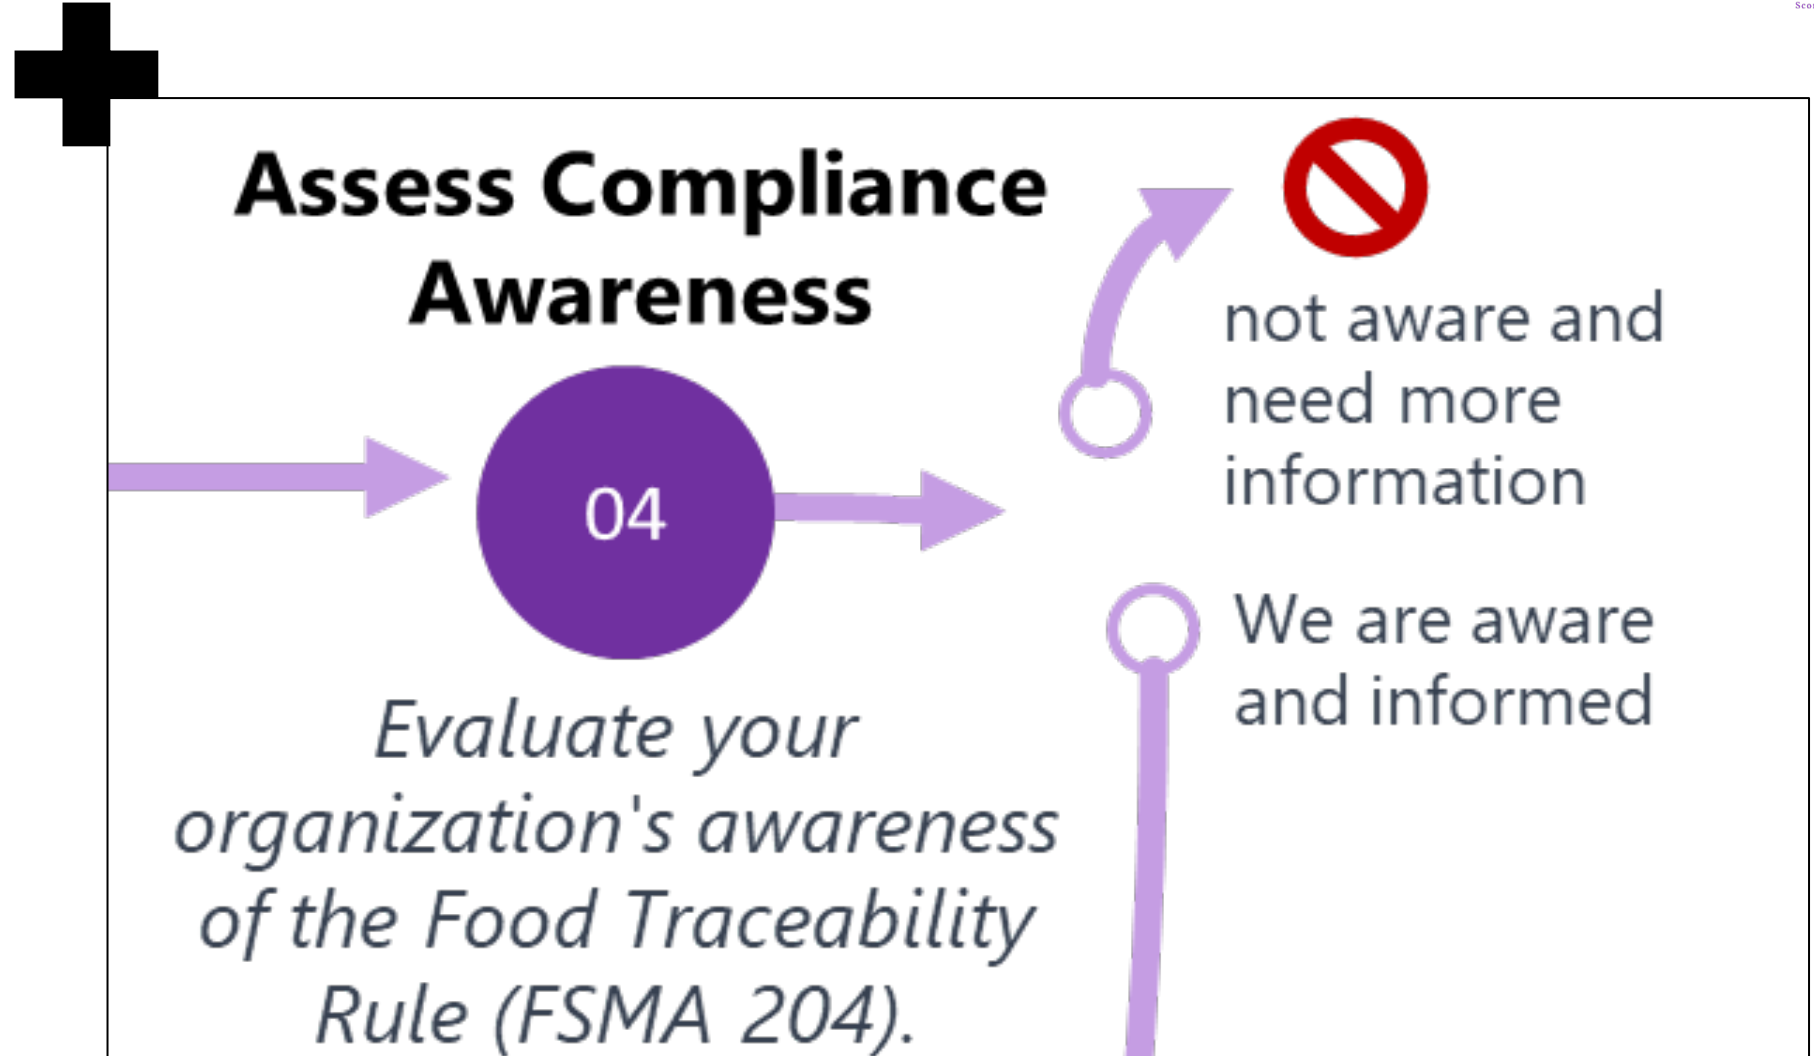

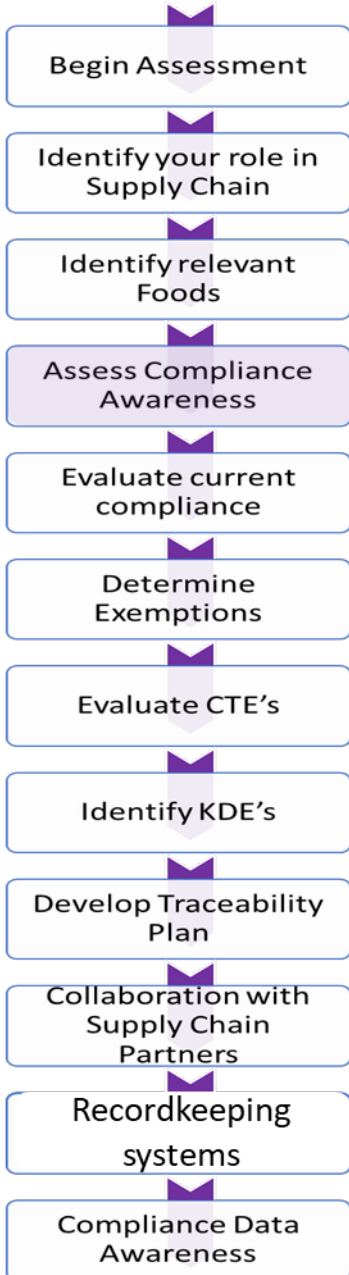

Determine your organization's role in the food supply chain (e.g., manufacturer, processor, packer, holder).

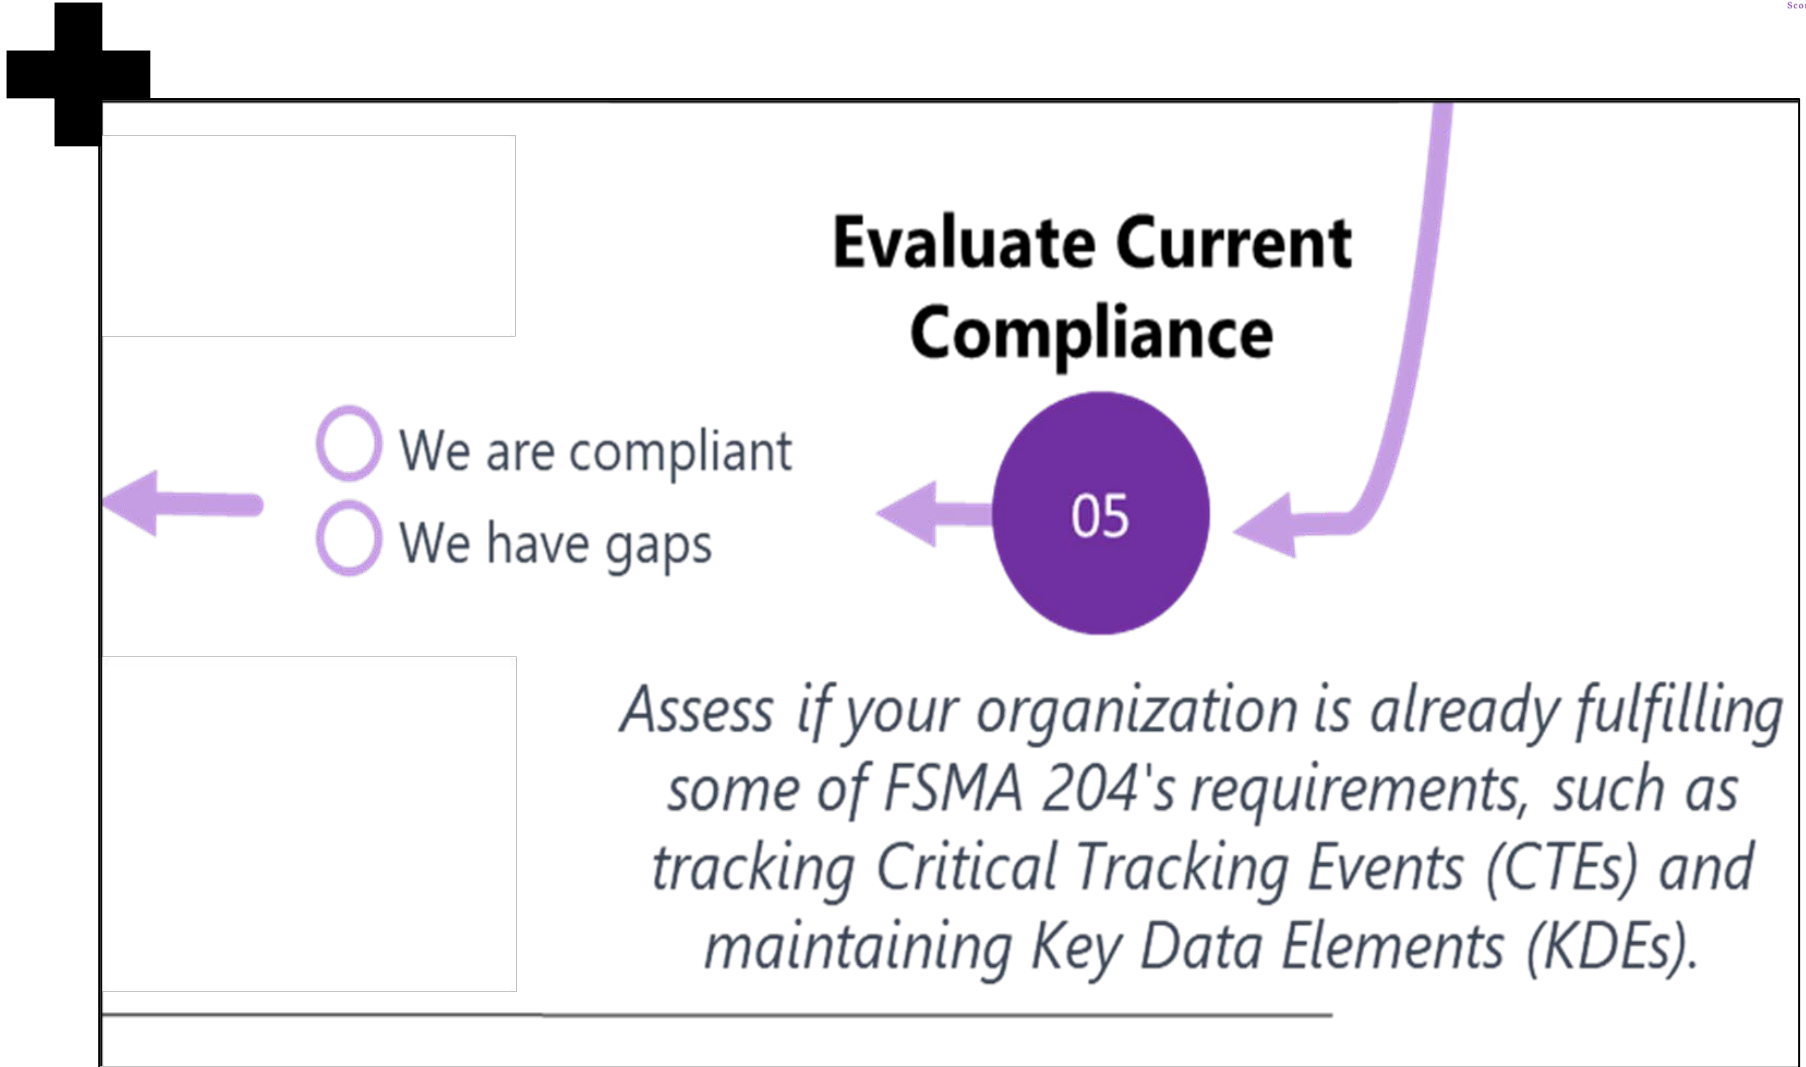

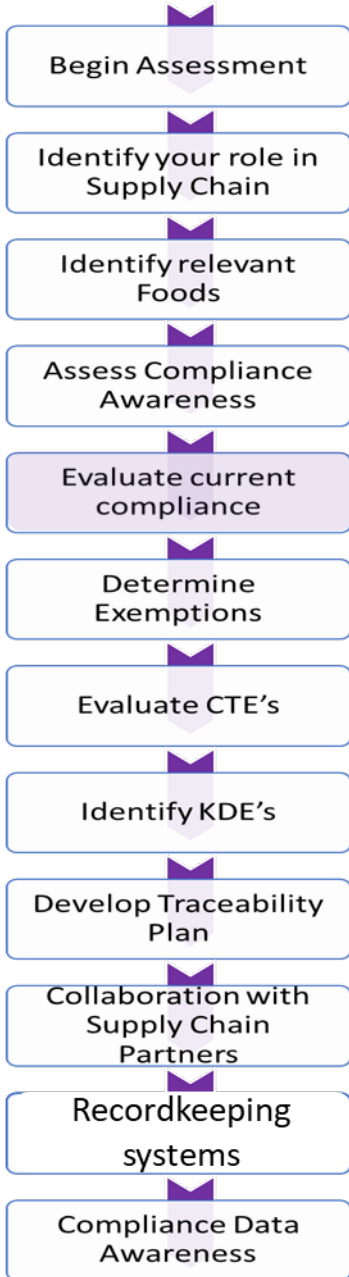

Start with Self Assessment

Start with Self Assessment

Start with Self Assessment

Evaluate Current Compliance

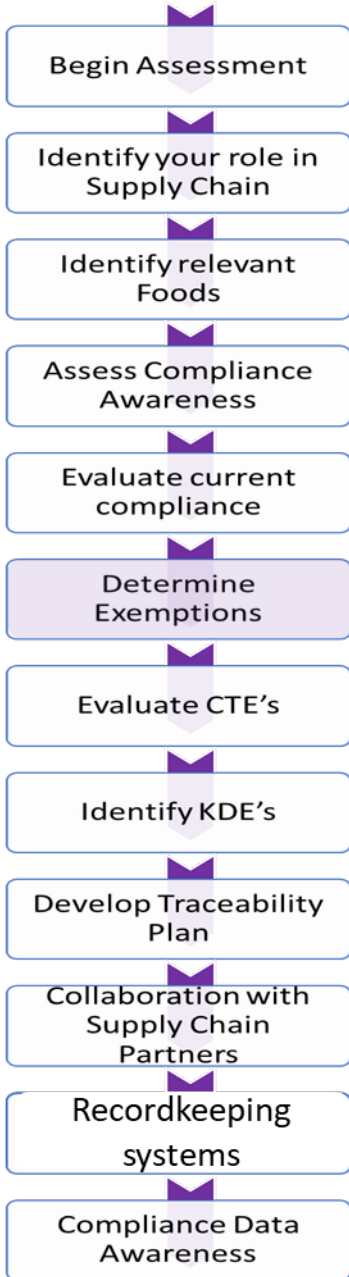

We are compliant
 We have gaps

05

Assess if your organization is already fulfilling some of FSMA 204's requirements, such as tracking Critical Tracking Events (CTEs) and maintaining Key Data Elements (KDEs).

Start with Self Assessment

Determine Exemptions

06

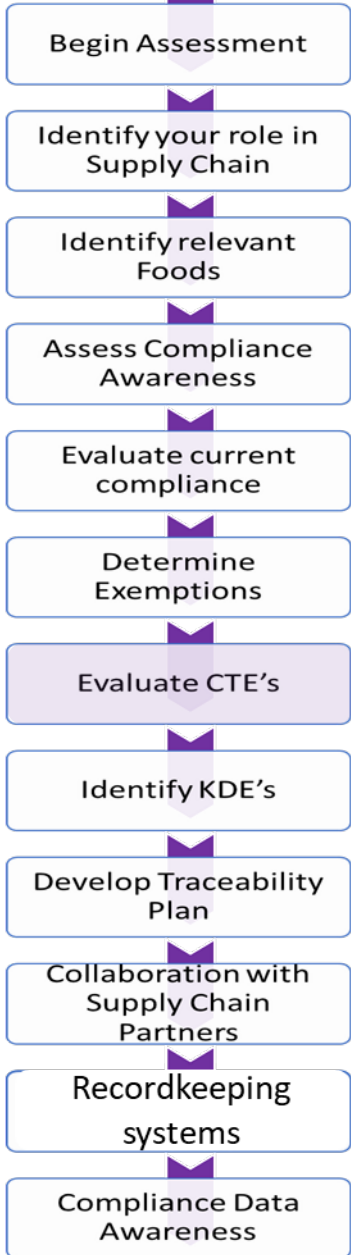

Exemptions Apply

No Exemptions Apply

Determine if any exemptions apply to your organization based on its size, activities, or specific food products.

Start with Self Assessment

Evaluate Critical Tracking Events (CTEs)

We conduct CTE's

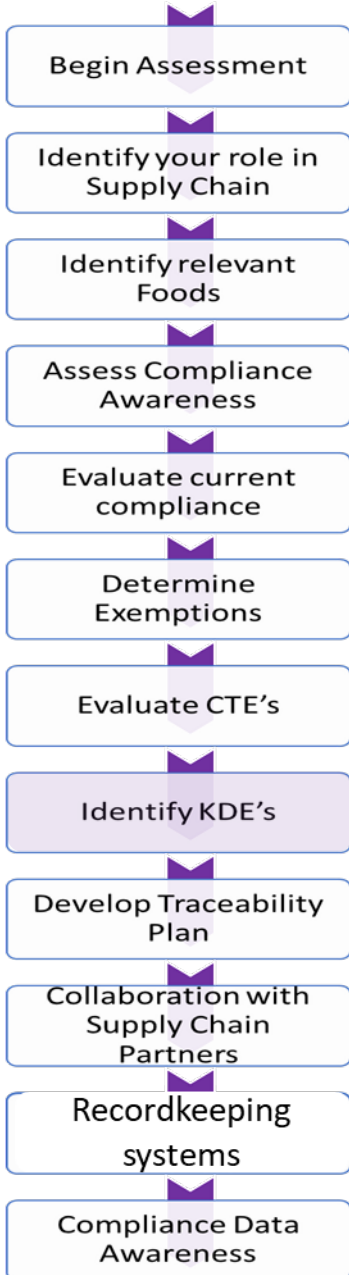

We do not conduct CTE's

07

Identify and assess the Critical Tracking Events (CTEs) relevant to your organization's role in the supply chain.

Start with Self Assessment

Identify Key Data Elements (KDEs)

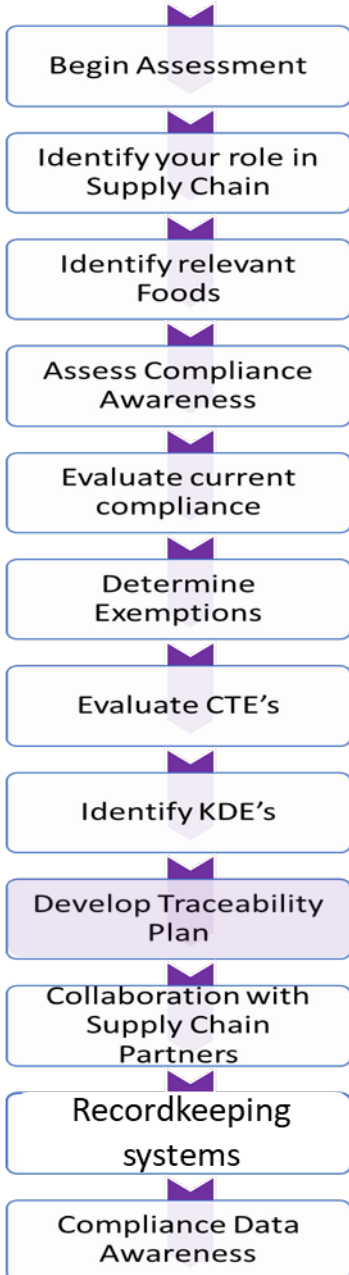

08

Determine the Key Data Elements (KDEs) that your organization already maintains or should maintain to comply with FSMA 204.

- We conduct CTE's
- We do not conduct CTE's

Start with Self Assessment

Develop Traceability Plan

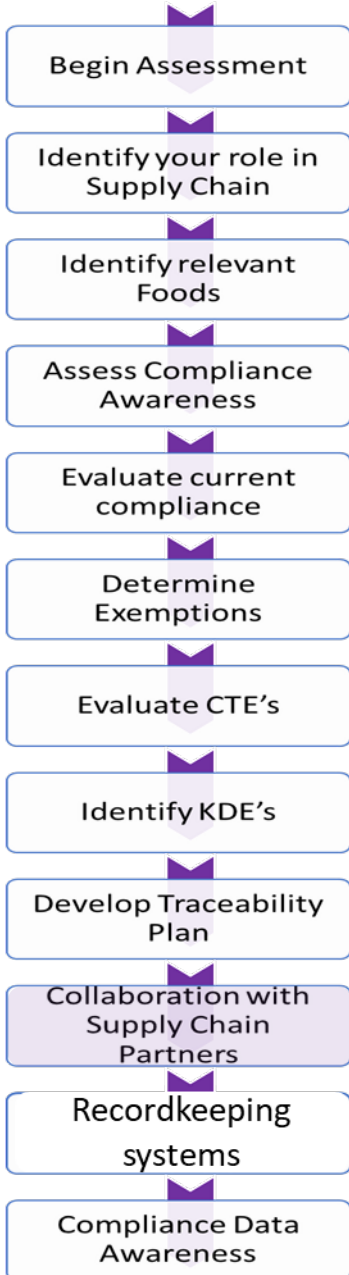

- We have a plan
- We do not have a plan

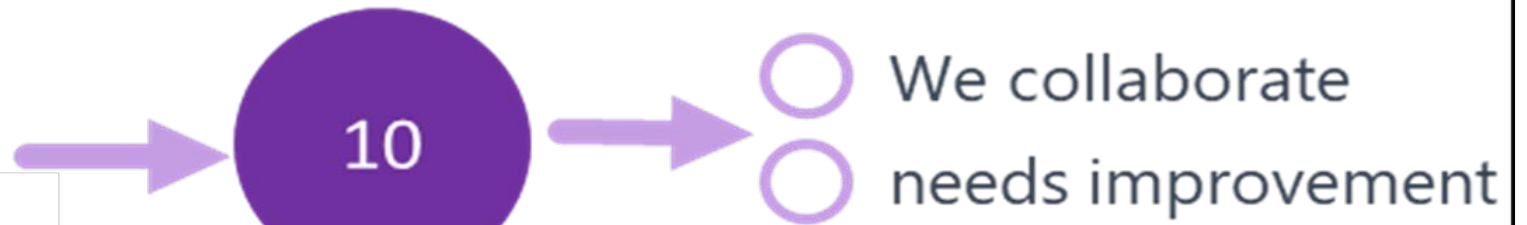

Consider developing a traceability plan for your organization to ensure compliance with FSMA 204.

Start with Self Assessment

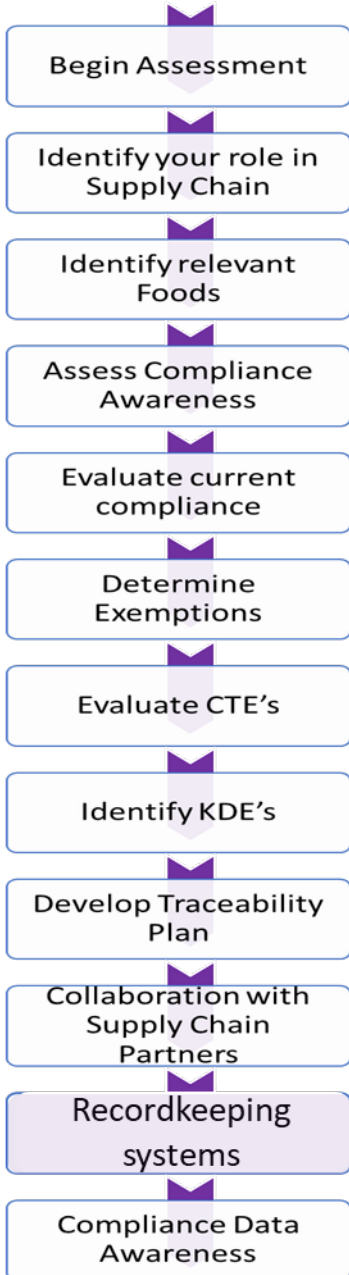

Collaboration with Supply Chain Partners

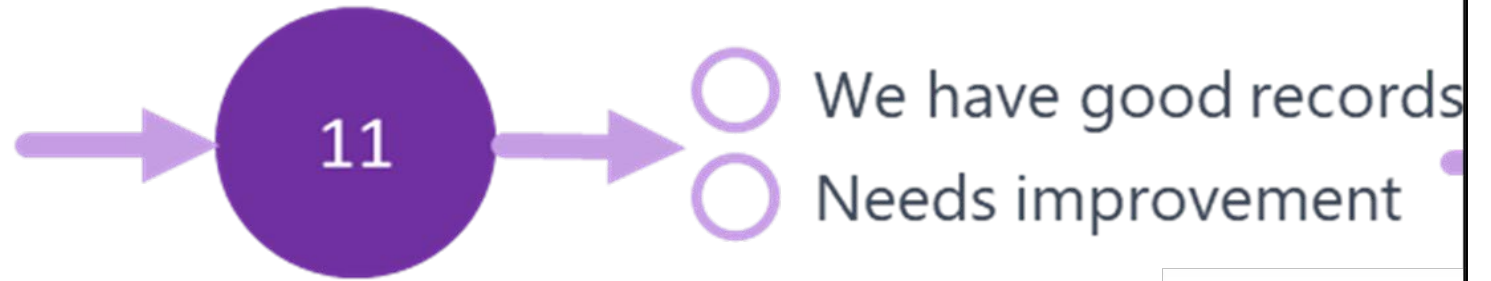

Assess the level of collaboration with your supply chain partners in meeting FSMA 204 requirements.

Start with Self Assessment

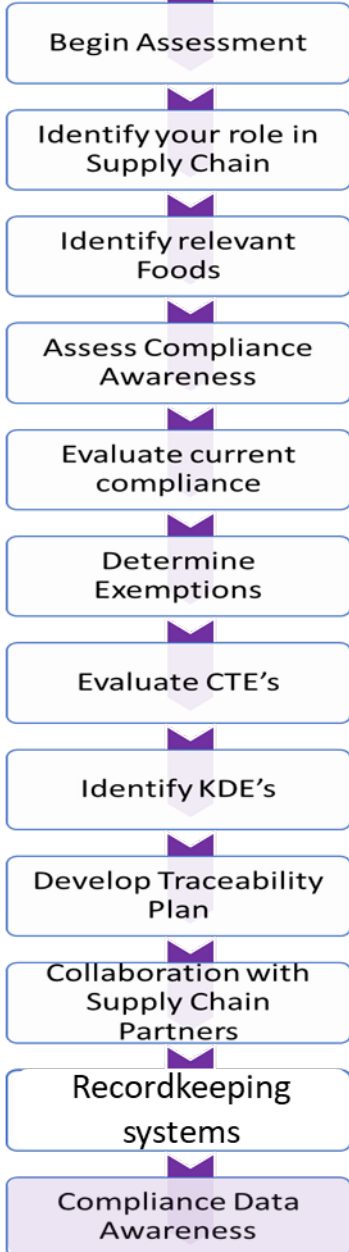

Recordkeeping Systems

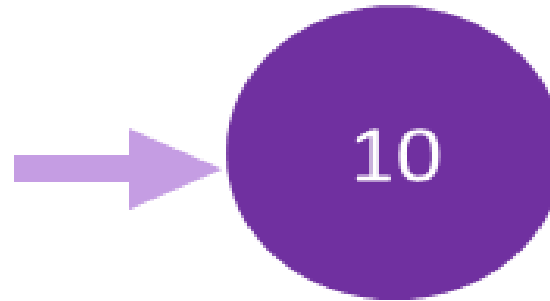

Understand your recordkeeping systems and those of your supply chain partners to facilitate traceability information exchange.

Start with Self Assessment

Compliance Date Awareness

Ensure that your organization is aware of the compliance date for FSMA 204 (January 20, 2026).
